Introduction

Launched in November 2021, Grumpy Shiba (GRUMPYSHIB) is a DeFi altruism token, the first of its kind!
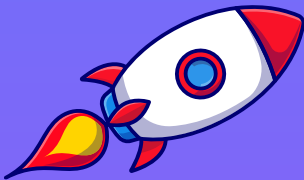

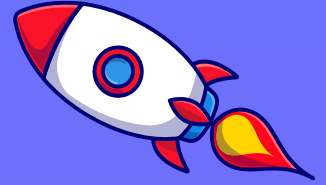

Unlike traditional meme coins that simply exist for the sake of existing, the idea behind GrumpyShiba was to create a cryptocurrency that could power a decentralized network of fundraising campaigns.

Our Shiba is Grumpy because of the same existential issues we all recognize but feel individually powerless over: inequality, suffering and injustice; on both a micro- and macro-scale.
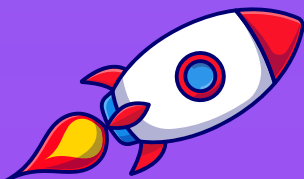

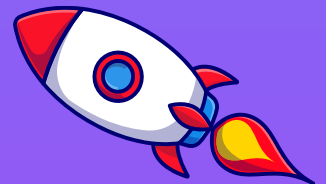

We want to connect Grumpy people from across the world to form a community that can help bring attention to these issues and fund the changes that we all want to see.

Abstract

GRUMPY SHIBA (GRUMPYSHIB) was deployed on November 6th, 2021 with a simple goal in mind: to harness the popularity of meme-tokens and create something to inspire real and meaningful change in the world. Conventional fundraising platforms and organizations are notoriously plagued with a lack of transparency, misappropriation of funds and community trust issues which demoralizes everyday people who want to be involved. Enter decentralized finance and a complete revitalization of fundraising as we know it today.

GRUMPY SHIBA offers unlimited growth potential with virtually no scaling costs. Traditionally, as charitable organizations grow in size, members must accept the trade off of a larger reach for sometimes exponentially larger overhead expenses. With our decentralized ecosystem, more members just means more helping hands!

A BEP-20 defi token, GRUMPY SHIBA was built on the Binance Smart Chain (BSC), one of the fastest-growing and most convenient blockchains for end-users.

Our dynamic ecosystem serves as an innovative tool to pursue change and motivates users to buy, hold, and use our GrumpyShib token. As we continue to find more good samaritans from around the world who see the value of investing in such a token and being a part of our ecosystem we will be able to drive the value higher and higher together - rewarding token holders and growing our ability to help more people!

An up-to-date counter graphic showing the total number of burned tokens is available and live on our main Grumpy Shiba website.

Ecosystem

Grumpy Shiba is more than just a token, it's an entire decentralized ecosystem built to inspire change. We like to visualize our crypto-altruism network as three individual but deeply interconnected systems that work in unison to deliver change where it is needed:

1 GrumpyShiba
Our defi token that powers the network

2 ShibHope
Our decentralized platform for fundraising campaigns

3 FellowShib
Our community of like minded people from around the world

ShibHope allows users to create or stake on fundraising campaigns meant to finance the change we want to see. From individuals dealing with life-altering tragedies, to global disasters threatening humanity - ShibHope campaigns expose a wide audience of humanitarians to problems both big and small in order to incite action. Powered by a decentralized cryptocurrency, ShibHope also plans to eliminate wasteful misappropriation of funds seen in traditional fundraising models by allowing patrons to donate tokens directly to a cause of their choosing and then having the ability to track their movement. Community members can see the impact of their donations and transparency is ensured throughout the entire process.

More than just a revolutionary concept - we're a rapidly growing community that believes in a token with the power to make a difference in the world: the #FellowShib. A central location our tribe can gather, FellowShib provides members with forums, games and tons of other exciting resources. We intend to use our FellowShib to coordinate partnerships with existing charities, plan and organize events to rally for change, and facilitate a fast and easy way to discover like minded people.

Tokenomics & Numbers

Token Symbol: GRUMPYSHIB
Total Supply: 1 Trillion
Circulating Supply: 600 Billion
Market Cap: <$10,000
Coins Burnt: 100 Billion
Holders: <1000

Exclusive NFT Giveaways

In order to encourage interaction with our ecosystem and try to reward members of our community kind enough to donate for worthy causes, we will be holding weekly exclusive NFT Giveaways. Simply Stake GRUMPYSHIB token on any active ShibHope campaign and that wallet will automatically receive an entry into the weekly sweepstake.

Simply Stake GRUMPYSHIB token on any active ShibHope campaign and that wallet will automatically receive an entry into the weekly sweepstake.

Multiple stakes yield multiple entries. Staking more often and on more campaigns will increase your chances of winning, but the amount you give does not matter.

Our giveaways are fair for all members regardless of how much they can contribute individually.

The exclusivity of our Giveaway is tied to the fact that we will only be raffling off a single NFT each week, and we will keep track and catalog all previous NFTs won on our main website. Any attempt to create, distribute, or mint similar artwork in order to dilute the value from this collection, even by the original designer will fail as the value of this specific NFT is tied to the time period of the giveaway and represents all of the successful campaigns and people we were able to help.

This guarantees that each week, any of our amazing members have the opportunity to win a priceless NFT by helping those in need and promotes GRUMPYSHIB's mission of altruism.

Grumpy Shiba Token

Grumpy Shiba was built on the Binance Smart Chain (BSC) which we believe is the ideal backbone to support our token.

One of the fastest-growing and most widely-used blockchains for Decentralized Finance, BSC offers the following benefits:

1. Lightning-fast swaps

2. Much cheaper; extremely low fees

3. BEP-20 token protocol

4. Proprietary blockchain; safe and secure

5. Native dual chain interoperability

6. EVM-compatible

7. Proof of Stake Authority consensus;

8. Decentralized and community-driven

How To Buy GRUMPYSHIB

1. Set up a Wallet:
    1. We recommend using Trust Wallet, but any binance-compatible wallet will work.
2. Send Smart Chain BNB to your Wallet:
    1. Buy Smart Chain BNB with your preferred crypto exchange (MoonPay, CoinBase, Binance, etc.) and send it to your wallet.
3. Swap Smart Chain BNB for GRUMPYSHIB:
    1. Visit PancakeSwap, connect your wallet, and exchange Smart Chain BNB for GRUMPYSHIB (https://pancakeswap.finance/swap?outputCurrency=0xAe448cB5A3ec77BA4aDcc6C8f9621e5921DCd77a)

Token Address:
0xAe448cB5A3ec77BA4aDcc6C8f9621e5921DCd77a

If you're having any difficulties in purchasing GRUMPYSHIB or seeing it in your wallet after you have swapped, please reach out to us via email (info@grumpyshib.com) or send us a direct message on any of our social media pages for a fast response!

Roadmap

Phase 1

- ✔ Launch Grumpy Shiba website
- ✔ Implement fundraising platform (ShibHope)
- Start weekly NFT giveaway (Season 1)
- 100B Burn to celebrate deployment
- ✔ Develop Whitepaper (GrumpyPaper)
- Establish Social Media Presence

Phase 2

- Large scale Social Media Ad Campaign
- Submit to a third party token audit
- Micro-Influencer collaborations
- Trending campaign spotlight
- Weekly NFT giveaway (Season 2)
- Add GrumpySwap token exchange
- 10,000 holders
- 100 fundraising campaigns

Phase 3

- Partner with accredited charity funds
- Expand #FellowShib community & deploy FellowShib website
- Acquire listings on Coinmarketcap & Coingecko
- Deploy weekly contributor highlights
- Weekly NFT giveaway (Season 3)
- 25,000 holders
- 1,000 fundraising campaigns
- 10 sponsored charity campaigns

Phase 4

- Pursue listings on additional crypto marketplaces
- Weekly NFT giveaway (Season 4)
- Plan and host a community-voted on charity event
- 100,000+ holders
- 2,500+ unique fundraising campaigns
- 100+ unique sponsored charity campaigns

Thank You!

If the world makes you Grumpy and you're tired of waiting for change, then this is your calling and we are your tribe.

Thank you for supporting our cause and remember to stay Grumpy!
